Title: A System and Method of Disharmonic Frequency Multiplying

Small Entity Declaration—Non-Inventor Individual

I hereby declare that I am making this verified statement to support a claim by Webface Inc

for small entity status for purposes of paying reduced fees under 35 USC 41(a) & (b) with regard to the above-entitled invention of the above applicants and described in the specification filed herewith.

I hereby declare that I would qualify as an independent inventor as defined in 37 CFR 1.9(c) for the purpose of paying reduced fees under 35 USC 41(a) & (b) if I had made the above-identified invention.

I have not assigned, granted, conveyed, or licensed—and am under no obligation under any contract or law to assign, grant, convey, or license—any rights in the invention to either (a) any person who could not be classified as an independent inventor under 37 CFR 1.9(c) if that person had made the invention, or (b) any concern which would not qualify as either (i) a small business concern under 37 CFR 1.9(d) or (ii) a nonprofit organization under 37 CFR 1.9(e).

I have not assigned, granted, conveyed, or licensed—and am not under any obligation under contract or law to assign, grant, convey, or license—any rights in the invention to any person, concern, or organization.

I acknowledge a duty to file, in the above application for patent, notification of any change in status resulting in loss of entitlement to small entity status prior to paying, or at the time of paying, the earliest of the issue fee or any maintenance fee due after the date on which status as a small entity is no longer appropriate (37 CFR 1.28(b)).

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed:
